

December 12, 2008

Dear Kyle Kearney,

This letter is in regards to my daughter Tiffany. I would like to inform you that she has passed her driving test for her license. Her performance was excellent on the Class D Skills Test, the examiner only had a score of "1", which was under Business/Residential, traffic check/defensive. He told me she failed to slow down enough at an uncontrolled intersection. I was very impressed, she was ecstatic.

Now I would like to discuss with you why I would recommend your Driving School over another. I have an older son who went through a different agency and I don't think they prepared the students as well for the responsibilities they will be facing when they are on their own. I followed along while Tiffany attended classes and considered it better organized and more detailed. This next factor alone should encourage people to enroll in your Driving School, that the students are able to take two Department of Motor Vehicle Exams during your classroom time. It was so much easier for Tiffany to obtain her Instructional Permit. No hassle and no waiting at the Department of Motor Vehicles.

Tiffany started behind the wheel portion on July 17, 2008 and finished November 25, 2008. I liked the fact that her appointments for driving were less frequently. This way you were able to see how she developed while I was driving with her and correcting bad habits I didn't catch, and improve in areas that I had not gone over with her.

I would like to thank you for helping my daughter obtain her driving license.

Sincerely,

Laurie N.
